

Physician Assistant (PA) Skills Checklist

This assessment is for determining your experience in the below outlined clinical areas. This checklist will not be used as a determining factor in accepting your application for employment with Freedom HCS.

PROFICIENCY SCALE

1. No Experience 2. Need Training
3. Able to perform with supervision 4. Able to perform independently

Proficiency Scale	1	2	3	4	Proficiency Scale	1	2	3	4
Populations worked with::					Respiratory System (continued):				
Neonatal					Nonbacterial				
Pediatrics					URI (Upper respiratory infection)				
Adolescent					Other (list):				
Adult									
Geriatric					Cardiovascular system:				
					Congestive heart failure				
Disorders-Emergencies					Chronic obstructive pulmonary disease				
Anaphylaxis					Stasis ulcer of lower extremities				
Cardiac arrest					Angina				
Seizures					Pericarditis				
Minor head injuries					Coronary artery disease				
Animal bites					Functional murmurs				
Ingestions and poisonings					Congenital heart disease				
Overdose of sedative, hypnotics, opiates					Hypertension				
Snake bites					Other (list):				
Minor burns									
Shock					OB/GYN				
Open wounds					Nausea and vomiting with pregnancy				
Other (list):					Dysmenorrhea				
					Candida vaginitis				
Respiratory:					Pap smears				
Croup					Abnormal pap smear findings				
Influenza					Trichomonal Vaginitis				
Tracheobronchitis					Atrophic vaginitis				
Bronchitis					Fibrocystic breast disease				
COPD (chronic obstructive pulmonary disease)					Menopause				
Asthma					Bartholin's cyst/ abscess				
Pneumonia					Preparation for childbirth				
Viral					Pregnancy-diagnosis and referral				
Bacterial					Pain relief in active phase of labor				

Physician Assistant Skills Checklist

Proficiency Scale	1	2	3	4	Proficiency Scale	1	2	3	4
OB/GYN (continued):					Skin (continued):				
Intrapartum medications					Pityriasis Rosea				
Medications in the third stage					Contact dermatitis				
Dysfunctional uterine bleeding					Tinea corporis				
Rh blood factor					Tinea pedis				
Mastitis					Other (list):				
Medications in the Post Partum phase									
Birth control methods					Ears, Nose, and Throat:				
Pre-natal care					Epistaxis				
Fetal well-being					Otitis externa				
Other (list):					Serous otitis media				
					Acute purulent Otitis media				
GI system:					Allergic rhinitis				
Constipation					Pharyngitis				
Diarrhea (simple)					Oral candidiasis				
Irritable bowel syndrome					Other (list):				
Acute gastroenteritis									
Hiatal hernia					Eye:				
Hemorrhoids					Conjunctivitis				
Hepatitis					Strabismus				
Duodenal ulcer					Chalazion				
Cholecystitis					Stye				
Pyloric stenosis					Other (list):				
Colic									
Appendicitis					Musculoskeletal:				
Other (list):					Osteoporosis				
					Osteomyelitis				
Skin:					Rheumatoid arthritis				
Warts					Juvenile diabetes				
Basal skin carcinoma					Gout				
Scabies					Minor sprains and strains				
Impetigo					Osteoarthritis				
Diaper dermatitis					Carpal tunnel syndrome				
Acne					Scoliosis				
Folliculitis					Tendonitis				
Furuncles					Bursitis				
Carbuncles					Muscular dystrophy				
Herpes simplex					Other (list):				
Herpes zoster									
Malignant melanoma									

Proficiency Scale					Proficiency Scale				
1	2	3	4		1	2	3	4	
Parasitic Infections:					Endocrine:				
Pinworms					Type I diabetes mellitus				
Ascariasis					Type II diabetes mellitus				
Pediculosis					Graves disease				
Other (list):					Addison's disease				
					Juvenile diabetes				
Genitourinary System:					Hypoglycemia				
Syphilis					Hypothyroidism				
Chlamydia									
Herpes					Hematological:				
Cystitis					Folic acid deficiency anemia				
Pyelonephritis					Aplastic anemia				
Urinary tract infection					Iron deficiency				
Benign prostatic hypertrophy					Sickle cell anemia				
Vulvovaginitis					Pernicious anemia				
Hypospadias					Other (list):				
Hydrocele									
Gonococcal infections					Psychosocial:				
Prostatitis					Depression				
Other (List):					Suicide				
					Obesity				
Nervous System:					Grief				
Vasovagal syncope					Anxiety				
Migraine headaches					Anorexia				
Multiple sclerosis					Bulimia				
Headaches					Other (list):				
Head injury									
Tension					Miscellaneous:				
Migraine					Suturing				
Anxiety					Cell biopsy				
Parkinson's					Starting IV				
Stroke					Casting and splinting				
Alzheimer's					Other (list):				
Bell's Palsy									
TIA (transient ischemic attacks)									
Trigeminal neuralgia									
Multiple sclerosis									
Other (list):									

Physician Assistant Skills Checklist

Able to ensure a safe and caring environment for the specific age groups indicated below; able to communicate and instruct patients from various age groups; able to evaluate age-appropriate behavior and skills.

PROFICIENCY SCALE	1	2	3	4
Newborn (birth-30 days)				
Infant (30 days-1 yrs)				
Toddler (1-3 yrs)				
Preschooler (3-5 yrs)				
School Age (5-12 yrs)				
Adolescents (12-18 yrs)				
Young Adults (18-39 yrs)				
Middle Adults (39-64 yrs)				
Older Adults (64 yrs +)				

The information represented above is true and correct to the best of my knowledge. I also authorize **Freedom** Healthcare Staffing to share the above skills checklist with its hospital clients.
